

Brand, Music & NIL Glossary

Plain-English definitions for the terms people throw around.

WHY THIS MATTERS

Terms like sync, master, NIL, and fair use get tossed around quickly. This glossary keeps a plain-English reference for families, schools, and creators. It is an educational aid, not a set of legal definitions.

WHAT'S INSIDE

- NIL: name, image, and likeness - the rights tied to a person's identity in commercial use
- Act 810: Louisiana's state law framework for NIL consent
- Master: the sound recording file and who owns it
- Sync license: permission to pair a song with moving images
- Neighboring rights: performance royalties tied to a recording
- Fair use: a limited defense for using copyrighted material; it is not a blanket permission
- DMCA: the US statute that provides safe-harbor workflows for online content
- Hudl: a sports media platform; check its terms before assuming you own your highlights
- Platform lock-in: losing control of your content because the platform keeps it

A STANDING PROMISE

Education, not representation. Jaylen Sinegal provides brand strategy, media education, and IP consulting. Families, schools, and buyers keep direct control of their own assets.

This resource is educational material meant to help you ask better questions. It is not legal, tax, financial, or investment advice, and it is not a contract. Louisiana law, platform terms, and school rules change. Confirm the current rules for your situation and have a qualified attorney review final documents whenever money, minors, or contracts are involved.

If this resource references an organization, platform, or law (including Louisiana Act 810 and La. R.S. 51:2500 et seq.), it is a plain-English overview, not the authoritative text. Read the actual statutes and terms before relying on any checklist.
